Architectural Design Area

Architectural Commercial Design Skill Award

The Architectural Commercial Design Skill Award is to train the student in the design techniques for the design of a one and two-story commercial structure. Advanced instruction in the area of interior design is also included. Upon completion of this skill award, the student may enter the workforce as a commercial and interior design drafter/designer. Students will also complete a portfolio of their work from previous architecture classes. This is the third of three stackable skill awards for Architectural Design.

<u>Course</u>	<u>Units</u>
Arch 130 – Commercial Architectural Design I.....	3
Arch 135 – Commercial Architectural Design II.....	3
Arch 142 – Advanced Interior Design.....	3
Arch 240 – Architectural Portfolio Development	2.5
Total Units.....	11.5

Note:

Arch 130 requires the completion of the following prerequisite classes: Arch 101 and Arch 102.
Arch 142 requires Arch 141. Arch 240 requires Arch 120, 130, and 250. (The student may enroll in these classes at the same time with instructor permission.)

Please Note:

If the student feels that they meet the equivalent education/experience, please contact the instructor or department chair for permission to enroll in classes that require a prerequisite.

Last Revision: Tuesday, April 3, 2018
