## STUDENT SUCCESS SERIES

- A+ Papers - Learn how to write concise, impactful, grammatically accurate statements using powerful and meaningful words.
- APA vs. MLA - Learn the basics of citation for research writing and their differences; cheat sheet will be included.
- Choosing your Major - Finding your career path may be a challenge with so many options. Find your passion and skills to be marketable in the workforce.
- College Survival Checklist - Learn helpful tips and strategies to survive the first few years of college.
- Financial Aid - Meet with a financial aid expert who can answer all your financial questions regarding loans and scholarships to demystify the process.
- GI Bill - Learn how to maximize your benefits with all the complexities and changing policies of the GI Bill. As it's difficult to keep current on the continually evolving policies, let us help you decipher the current rules and regulations.
- International Students - Understand rules and regulations when applying as an international student. Meet with an advisor who will help you through the enrollment process.
- Learning Management Systems - Learn basic various LMS management systems such as Canvas, Blackboard, Moodle, etc.
- Presentation Platforms - Learn various presentation software such as PPT, Google slides, Dogslide, etc..
- Public Speaking Skills - Build confidence and public speaking skills that will help you in presentations in school as well as throughout your career.
- Resume & Cover Letter writing, Interviewing Skills - Learn how to get your dream job from the first step of the cover letter to the last step of the interview.
- Statement of Purpose - Writing an effective statement of purpose for college apps could be the one variable that makes or breaks the committee's decisions. Learn how to write a letter that will distinguish you above the rest.
- Stress Management - Learn ways to prevent, reduce, and relieve stress.
- Test Taking Skills - Learn the process of elimination, skimming, and scanning skills that will help you through a variety of assessments as well as standardized testing.
- Time Management - Learn valuable skills such as prioritizing, delegation, decision making, goal setting, multitasking, problem solving, and strategic thinking.
- Transition to NU - Going from a 10 or 16-week program to 4 weeks can be quite daunting. Join us as we simplify the process by introducing the multitude of services we offer such as Student Accessibility Services (SAS), which is dedicated to creating a fully integrated and inclusive learning community.
