

COURSE OUTLINE : AT 153
D Credit – Degree Applicable
COURSE ID 010240
Cyclical Review: September 2020

COURSE DISCIPLINE : AT
COURSE NUMBER : 153
COURSE TITLE (FULL) : Introduction to Unmanned Aerial Systems
COURSE TITLE (SHORT) : Intr to Unmanned Ariel Systems

CATALOG DESCRIPTION

AT 153 is an introductory course to understanding the functions, characteristics, regulations, and applications of unmanned aerial systems and vehicles. The course includes a detailed discussion of unmanned aerial systems and their uses in military, commercial, civil, and public settings.

CATALOG NOTES

The student must be able to speak, read and understand the English language per the requirements of Part 61 of the Federal Aviation Regulations as explained in FAA Advisory Circular 60-28B, and the Level 4 requirements of the International Civil Aviation Organization.

Total Lecture Units: 3.00

Total Laboratory Units: 0.00

Total Course Units: 3.00

Total Lecture Hours: 54.00

Total Laboratory Hours: 0.00

Total Laboratory Hours To Be Arranged:0.00

Total Contact Hours: 54.00

Total Out-of-Class Hours: 108.00

Recommended Preparation: AT 152 and ENGL 100 or ESL 141, or equivalent.

ENTRY STANDARDS

| | Subject | Number | Title | Description | Include |
|---|----------------|---------------|--|--|----------------|
| 1 | AT | 152 | Introduction to Unmanned Aerial Vehicles | Identify, examine, and assess the uses of unmanned aerial vehicles (UAV) in military, commercial, civil, and public settings; | Yes |
| 2 | AT | 152 | Introduction to Unmanned Aerial Vehicles | analyze, discuss, and differentiate manned versus unmanned aircraft missions; | Yes |
| 3 | AT | 152 | Introduction to Unmanned Aerial Vehicles | describe components of UAS sensor and communication systems; | Yes |
| 4 | AT | 152 | Introduction to Unmanned Aerial Vehicles | define and design unmanned aerial vehicle (UAV) with airworthiness to accommodate a UAS mission. | Yes |
| 5 | | | | analyze short essays (at least five paragraphs in length) to identify thesis, topic development and concluding sentences, as well as traditional expressions used to increase coherence; | Yes |
| 6 | | | | evaluate compositions for unity, and sufficiency of development, and coherence, as well as variety of sentence structure; | Yes |
| 7 | | | | organize and write a thesis-driven, organized essay which is at least three paragraphs in length (paragraphs should have a topic sentence and at least five additional sentences which further develop that topic sentence with explanations or examples. These sentences must be in logical order and be connected by transitional expressions, where appropriate. Paragraphs must be tied together by appropriate transitions or other devices which provide cohesion.); | Yes |
| 8 | | | | use in their essays a variety of sentence types with minimal errors in such basics of the sentence as subject-verb agreement, subordination, and complementation; | Yes |

Cyclical Review: September 2020

| | | | | | |
|----|------|-----|------------------|---|-----|
| 9 | | | | identify, examine, and assess the uses of unmanned aerial vehicles (UAV) in military, commercial, civil, and public settings; | Yes |
| 10 | | | | analyze, discuss, and differentiate manned versus unmanned aircraft missions | Yes |
| 11 | ENGL | 100 | Writing Workshop | Read, analyze, and evaluate contemporary articles and stories to identify topic, thesis, support, transitions, conclusion, audience, and tone; | Yes |
| 12 | ENGL | 100 | Writing Workshop | read, analyze, and evaluate contemporary articles and stories for the comprehension of difficult content and the identification of main ideas and (topic-based) evidence; | Yes |
| 13 | ENGL | 100 | Writing Workshop | read, analyze, and evaluate student compositions for unity, development, use of evidence, interpretation, coherence, and variety of sentence form; | Yes |
| 14 | ENGL | 100 | Writing Workshop | write a summary of a contemporary article or story with correct citation techniques; | Yes |
| 15 | ENGL | 100 | Writing Workshop | write an argumentative essay that has an introduction, body paragraphs, and a conclusion, demonstrating a basic understanding of essay organization; | Yes |
| 16 | ENGL | 100 | Writing Workshop | write an argumentative essay that addresses the topic, is directed by a thesis statement, uses appropriate textual evidence, develops logical interpretations, and concludes with some compelling observations; | Yes |
| 17 | ENGL | 100 | Writing Workshop | write an argumentative essay that integrates the ideas of others (i.e., authors) through paraphrasing, summarizing, and quoting with correct citation techniques; | Yes |
| 18 | ENGL | 100 | Writing Workshop | write an argumentative essay that generates novel ideas (those that add to the conversation rather than repeating the author's ideas) related to the topic and the readings; | Yes |
| 19 | ENGL | 100 | Writing Workshop | write compositions (e.g., summaries and argumentative essays) that are easy to read and follow, though some errors in grammar, mechanics, spelling, or diction may exist; | Yes |
| 20 | ENGL | 100 | Writing Workshop | proofread and edit essays for content, language, citation, and formatting problems. | Yes |

| | | | | | |
|----|-----|-----|------------------------|---|-----|
| 21 | ESL | 141 | Grammar and Writing IV | <p>Compose a 400 to 450-word thesis-based essay which:</p> <p>(a) summarizes and cites appropriately a reading passage provided as a prompt,</p> <p>(b) includes a clear thesis statement,</p> <p>(c) uses evidence to support the thesis,</p> <p>(d) shows clear organization into an introduction, body, and conclusion, and</p> <p>(e) uses appropriate rhetorical modes such as comparison/contrast, cause/effect, and persuasion in order to support a thesis.</p> | Yes |
|----|-----|-----|------------------------|---|-----|

EXIT STANDARDS

- 1 Identify, examine, and assess the uses of unmanned aerial systems (UAS) in military, commercial, civil, and public settings;
- 2 analyze, discuss, and differentiate manned versus unmanned aircraft missions;
- 3 describe components of UAS sensor and communication systems;
- 4 define and design UAV with airworthiness to accommodate a UAS mission.
- 5 define, describe, and identify components of UAS sensors and communication mechanisms.

STUDENT LEARNING OUTCOMES

- 1 describe and apply fundamental airworthiness concepts necessary for specific UASmissions;
- 2 identify military, civil, commercial, and public uses of UAS;
- 3 compare manned and unmanned aircraft missions.

COURSE CONTENT WITH INSTRUCTIONAL HOURS

| | Description | Lecture | Lab | Total Hours |
|---|---|---------|-----|-------------|
| 1 | <p>UAS Basics</p> <ul style="list-style-type: none"> • Definitions and attributes • Manned vs unmanned • Design considerations and architecture • Life cycle costs • Components • Air vehicle • Payload • Communications, data link, and ground control station | 6 | 0 | 6 |

OUT OF CLASS ASSIGNMENTS

- 1 reading notes;
- 2 current event homework;
- 3 UAS design group project (e.g. write a field report based on observations of a specific system).

METHODS OF EVALUATION

- 1 essay examinations;
- 2 midterm examination;
- 3 final exam.

METHODS OF INSTRUCTION

- Lecture
- Laboratory
- Studio
- Discussion
- Multimedia
- Tutorial
- Independent Study
- Collaboratory Learning
- Demonstration
- Field Activities (Trips)
