## **ALEJANDRO ZAMARRIPA CHÁVEZ** 2024-2025 STUDENT *of* DISTINCTION STUDENT COMMENCEMENT SPEAKER

Growing up as a first-generation Mexican-American student, Alejandro Zamarripa Chávez always felt a deep responsibility to make his parents proud. After graduating high school in 2019, he enrolled at Glendale Community College (GCC) with the dream of becoming a doctor. However, the reality of college-level biology and chemistry quickly set in. After struggling with his first chemistry test, Alejandro left GCC unsure of his next steps. He began working in his family's construction business, questioning whether college was the right path.

After some time, he returned to GCC and briefly explored architecture and music but again stepped away before officially withdrawing. For nearly three years, Alejandro worked full-time in construction. During this period, he gained a new appreciation for the discipline and commitment modeled by his father and brother, as well as the empathy his mother brought to her work as a postpartum doula. It was not until 2023, after a serious knee injury on a job site, that he decided to give college one more try.

When Alejandro returned to GCC, things were different. He came back with a renewed sense of purpose and determination. After successfully completing his first semester, he looked for ways to become more involved on campus. He joined student government (ASGCC) and soon found himself representing the student voice during the “March in March” advocacy event in Sacramento. The experience ignited a new passion for leadership and civic engagement. He realized that speaking up for others and working to make sure students felt seen and heard was more than just meaningful—it was his calling. He changed his major to political science, knowing that a career in public service would allow him to create real change for his community.

As Alejandro continued to grow into a leadership role on campus, he was selected to be a College Corps Fellow at the GCC CARES office, where he helped support efforts to fight food insecurity and assist students with basic needs. Wanting to push himself further, both socially and academically, he joined the Scholars Program in Fall 2024. The program gave him a space to develop stronger research and critical thinking skills, while also helping him build lasting relationships with other motivated students.

In Spring 2024, Alejandro took on a new role as a Student Ambassador through the Office of Hispanic-Serving Initiatives. In this position, he guides prospective students, many from underrepresented backgrounds, as they navigate the process of applying to and choosing a college. His work has been recognized not only by the campus community, but also by the City of Los Angeles and Councilmember Bob Blumenfield.

While Alejandro's path through higher education hasn't been traditional, every challenge helped him grow. Along the way, he has also faced personal hurdles. Since childhood, he has lived with a stutter, something that once made speaking in class or in public feel intimidating. Rather than allowing it to hold him back, he chose to see it as a strength. It has taught him to become a more intentional speaker and an empathetic listener—qualities that serve him well in leadership and advocacy.

Now, Alejandro is preparing to transfer to a four-year university to continue studying political science. He plans to pursue a career in public policy, with the goal of advocating for students, immigrant families, and working-class communities. He wants to help create a world where every student, no matter their background, has access to education, support, and opportunity.

Alejandro's journey at GCC may have had a few restarts, but each step brought him closer to discovering his purpose. He is proof that success is not about how you start, it's about how you return, grow, and lead.

# GCC High School Academies

## GCC's Early College Academy Class of 2025

**We are proud to present the fourth graduating class of the Early College Academy (ECA) from Herbert Hoover High School.** These students are graduating with their high school diploma from Hoover High School as well as an Intersegmental General Education Transfer Curriculum (IGETC) certificate and/or an Associate Degree from Glendale Community College. Since joining the ECA in 10th grade, these students have completed a minimum of 45 college credits alongside their high school coursework. ***GCC is extremely proud of our ECA Class of 2025!***

### **Distinguished Faculty Award**

With the Distinguished Faculty Award (DFA), the Academic Senate recognizes excellence in a professor's area of expertise including teaching, counseling, and work with students. It also considers good college "citizenship," such as contributions to college life outside the classroom or primary service area as secondary criteria. Candidates for the DFA must have been at the college for at least ten years. The Senate has tried to recognize a variety of people in a variety of areas and for a variety of efforts. The recipient list includes great lecturers, people who have reached out to their students in exceptional ways, and people who have developed tremendous programs. The DFA was first conferred in 1987.

### **William L. Parker Award**

The award, in honor of William L. Parker, a philosophy professor to whom it was first bestowed, is awarded by the Academic Senate based on long service to GCC. Criteria include multiple areas such as academic, professional and community service; recognition by faculty, staff, students and administration; and that the recipient's contributions will have a lasting impact on the institution. The award was first presented in 1993.

### **Exceptional Adjunct Award**

The Exceptional Adjunct Faculty Award (EAFA) is given for distinguished contributions to Glendale Community College in the recipient's discipline, or for contributions and accomplishments in other professional areas. The EAFA recipient serves as a role model for the rest of the adjunct faculty. The award was first conferred in 2006.

**Vision**

We are committed to building community and a sense of belonging for all. Through innovative and meaningful learning experiences, students enrich their lives, imagine their futures, achieve upward social and economic mobility, and contribute to a more inclusive, informed, and just society.

**Mission**

We empower students to transform their lives by achieving their economic, educational, career, and life goals through our instructional programs, student services, and community partnerships.
