Course Code (CB01) :	EMS246
Course Title (CB02) :	Diverse Patient Populations
Department:	EMS
Proposal Start:	Spring 2026
TOP Code (CB03) :	(1251.00) Paramedic*
CIP Code:	(51.0904) Emergency Medical Technology/Technician (EMT Paramedic).
SAM Code (CB09) :	B - Advanced Occupational
Distance Education Approved:	No
Will this course be taught asynchronously?:	No
Course Control Number (CB00) :	CCC000651643
Curriculum Committee Approval Date:	06/11/2025
Board of Trustees Approval Date:	07/08/2025
Last Cyclical Review Date:	10/25/2023
Course Description and Course Note:	EMS 246 introduces the paramedic to concepts in assessing and meeting the emergency care needs of the geriatric, neonate, pediatric patients and persons with disabilities. The course will focus on epidemiology, pathophysiology, assessment, and treatment of these patient demographics. The course also integrates medical and trauma assessments of these patients with psychosocial, ethnocultural, legal, and ethical considerations for these (and all) patients. This course addresses how to treat these diverse populations who may require adjustments to traditional treatment and assessment modalities.

Pediatric Intensive Care Hospital Clinical	Laboratory	0	1

Prerequisites, Corequisites, Recommended Corequisites, and Recommended Preparation**Co-Requisite**

EMS248 - Cardiology (in-development)

AND**Co-Requisite**

EMS250 - Trauma Emergencies (in-development)

AND**Prerequisite**

EMS240 - Fundamentals of Paramedic Practice (in-development)

Outcomes

- List body structures and systems.
- Associate how disease or trauma affects each body system and structure.
- Write patient documentation correctly.
- Perform proper technique for aseptic IV therapy.

AND

Prerequisite

EMS242 - Pharmacology (in-development)

Outcomes

- Recall and apply applicable laws affecting prehospital medications.
- Determine indications and contraindications for prehospital medications.
- Identify, manipulate and solve medication dose formulas for both adult and pediatric patients.

AND**Prerequisite**

EMS244 - Medical Emergencies (in-development)

Outcomes

- Compare pathophysiology and a specific disease.
- Summarize how disease affects a certain body system.
- Perform the correct assessment and treatment of a medical patient.

AND**Prerequisite**

EMS252 - Paramedic Internship Prep

Objectives

- Review paramedic's role in a prehospital environment as part of a healthcare team.
- Complete the necessary documents and supplies to begin the internship.
- Demonstrate proficiency in documentation by utilizing accepted medical chart format and terminology.

Learning Outcomes

Course Objectives

Review a proper assessment and treatment for this diverse population.

Exemplify understanding of needs and compassion for this patient demographic.

Identify persons with disabilities and their unique treatment needs.

Identify principles of epidemiology and pathophysiology.

SLOs

Demonstrate safe patient care through proper assessment and treatment of a patient with special needs. Expected Outcome Performance: 70.0

Apply knowledge of scientific principles of epidemiology on pathophysiology of a specific disease and how it may impact a patient with special needs. Expected Outcome Performance: 70.0

Additional SLO Information

Does this proposal include revisions that might improve student attainment of course learning outcomes?

No

Is this proposal submitted in response to learning outcomes assessment data?

No

If yes was selected in either of the above questions for learning outcomes, explain and attach evidence of discussions about learning outcomes.

Course Content

Lecture Content

Introduction (10 hours)

- Principles of epidemiology

- Principles of pathophysiology
- Overview of the persons with disabilities demographic

Geriatric patients (11 hours)

- Assessment medical/Trauma
- Treatment

Neonate (11 hours)

- Assessment medical/Trauma
- Treatment

Pediatric (11 hours)

- Assessment medical/trauma
- Treatment

Persons with Disabilities (11 hours)

- Assessment medical/trauma
- Specific patient needs to include culture, medical mistrust, language/communication barriers, patient/healthcare provider biases, and the impact on treatment.

Total hours: 54**Laboratory/Studio Content****Laboratory content (36 hours)**

- Medical assessment
- Medical Treatment
- Trauma Assessment
- Trauma Treatment
- Hospital Clinical

Total Hours: 36**Additional Information****Repeatability**
